Curious find

I was just about to finish removing all the mill-wheel trash from the river bank when I found this curious jewelry box with a strange egg inside. As soon as I picked it up, an amazing firebird hatched from the egg and flew right into my hand. I felt a strange tingling all over my body, like something was happening to me! I have to find my father right away!

This game tickles my tummy so hard it took me 17 hours to 100% with my homosexual lover uwu rawr!!!! XDDDDDDDD

sans undertale. DO NOT BUY THIS GAME.

The object of this game and the idea are amazing, this game would be innovative if the devs would finish it. this game seems to be in eternal early access, enough said, not worth your money at all, unless they actually end up finishing it. which i highly doubt it considering how long its been in early access.

[Update]

It seems as though they will not be finishing this game. The last update was 7 months ago, and we haven't heard anything from the Devs since. DO NOT BUY THIS GAME. It will be \$15 straight down the toilet. They have abandoned this project. Unless they spontaneously release another update, this will stay Not recommended from me.

[Update]

Sorry, but i forgot to mention the bug i've encountered that has rendered this game impossible to play. All characters are headless and textures are purely black. I can't see what the hell is going on, i've tried EVERYTHING to figure out the problem, and from what i hear i am the only person who has encountered this. This is the only game i have any trouble playing, so it's not my hardware or my software. Just....SERIOUSLY....DON'T BUY THIS GAME.. Awesome Kart Racer which embodies the look and feel of Crash Team Racing while managing to maintain it's own personality. Hard to believe that this game has been developed by one person, and I look forward to seeing what he does with the final release.. a really fun game its even better than gta cause of the missions and storyline is fricking funny
this game should get a award or something!. I bought it in the sale for 69 cents and it wasn't worth it. The fun is over in a few minutes, I got finally to 100 but there didn't change a bit besides that the knots you have to circle around get a little bigger. Multiplayer stays fun for a little longer, but there are enough just as funny free games all over the internet.. Story of the Survivor the Escape DLC is an okay DLC, but its story time.

You play as Steve a convict; he and his two friends have Survived the zombie apocalypse being in the vary prison that held them before the apocalypse. But soon food will run out, so Steve and his two friends must find a way to escape.

Now what I liked, story was good. I feel the rpg elements were used a bit better here than the main game. And there was not nighttime part that made the game hard to see.

Now for the bed, really there is just two. Like the character management still annoying, and there are some bugs were you can go into the well and get stuck or you can get stuck by a zombie corpse that is in front of the door.

So with that said not a bad game a bit better then main one, so I say get this DLC if you want to buy the main game as well.. Best 9 minutes of my life. 10/10 Would go in space again.

This game is very fun!!! But don't be fooled, there's a lot of pop ups and scream moments haha. Also, don't buy it thinking it's easy. THIS IS HARD! Running from Chester took me forever! Here's my gameplay, <https://www.youtube.com/watch?v=R8CGnHYmACo&t=44s>. I have a problem

I can not play my own tanki x pack

because I did not ask for password when downloading and I did not put nickname on my steam directly nickname account. Now I can not know my password. If you were a fan of the original Myst games you may find satisfaction in the continuation of the story and the reverence that the developers hold for the source material and interface style. Myst V does not hold your hand however, and the difficulty is rather high. In my play session I was unable to find my way out of the first room you start in after the opening cinematic. If that is any indication of the difficulty throughout the game, you may want to make sure you have a walkthrough handy. In the end, Myst V delivers what it promises and is a worthwhile purchase for fans of the original series or adventure gamers.. Great game but will not load on new windows.

It's cute, super cute, and looks adorable, the gameplay however is really boring however and while not terrible it's better suited for a mobile time-wasting game, than an actual PC title, decent but not decent enough, only recommended for those who like very simple repetitive mechanics.

This mini review is part of "10 Games that are so gosh darn cute."

<https://bluntlyhonest.review/2019/05/08/10-games-that-are-so-gosh-darn-cute/>. Easy to use and to get started with, makes life much easier!. Awesome game, here's a video/walkthrough

<https://youtu.be/IWLUBWwouAM>. Basic side scroller with minimal/basic variation in gameplay.

Game was glitchy with my mouse, and with no ability to modify the controls the game is unplayable, with the ship jumping randomly around when I move the mouse slightly.

Cannot recommend this game. \u5e0c\u671b\u8fd9\u6e38\u620f\u633a\u8fd\u7684\u72b6\u51b5\u6709\u6539\u5584\u7ff0\u6211\u662f\u9a6c\u6765\u897f\u4e9a\u4eba\u4f46\u73a9\u8fd9\u6e38\u620f\u7684\u633a\u8fd\u95ee\u9898\u8fd8\u86ee\u4e25\u91cd\u7684
